*Immerse
in the colours of the rainbow*

We have created more space for people and, at the same time, more space for nature. Green, leafy roofs on houses to discover and explore, houses that save energy and are cool in summer and warm in winter – and all this in organic harmony combined with culture.

Everything that lies under the open sky belongs to nature. Here, this becomes reality. One walks through wooded hills and is astonished to discover that people live beneath them.

*Friedensreich Hundertwasser
May 1997*

A warm welcome to the land of rolling meadows

Colourful columns, "dancing windows", flowing colonnades, golden domes and innumerable quiet retreats both in and by the water are an authentic expression of a philosophy that touches body and soul in equal measure. With no corners and edges, no straight lines. Instead, courageously embracing organic forms, colours, joyfulness on a human scale. A living place, where landscape and architecture have been lovingly joined together.

Water is the central focus here, with the two thermal springs. First and foremost, the hot Vulkania curative spring. An inland sea at a depth of about 3,000 metres, which reaches the surface at 110°C. Rich in minerals, containing natural brine, it's channelled into a lake with a bathing temperature of 37°C. Water as smooth as silk.

But this primeval sea pampers us in a whole variety of ways. For example, it's used for generating energy, and supplies the whole hotel and spa area with environmentally-friendly electricity and heating. In complete accordance with our founder's ideas, here at Rogner Bad Blumau we treat nature in a sensitive way and are pioneers of nature conservation and the sustainable use of resources. This also applies to the origin of the food we serve. In order to be able to offer the best, most of our predominantly organic products come from farms in the local region.

... because paradise is just around the corner.
Friedensreich Hundertwasser

Unique in the world · architecture by Friedensreich Hundertwasser · 2400 different windows · 330 columns · a variety of living, bathing and dining areas

Retreat · Stammhaus/main house · Ziegelhaus/brick house · Kunsthaus/art house · Steinhaus/stone house – double rooms and suites · corridor connecting SPA and restaurant areas · apartments in the Waldhofhaus/forest yard house and Augenschlitzhaus/eye-slit house · whirlpool with thermal water
